## HURRICANE HITS FLORIDA COAST

**Causes Enormous Damage to Property.**

**HEAVY LOSS OF LIFE FEARED**

Key West is a Mass of Wreckage and the Financial Loss is Estimated at Two Million Dollars—Plundering Began as Soon as Storm Subsided and the Mayor Proclaimed Martial Law in That City.

Key West, Fla., Oct. 12.—As a result of the hurricane which struck the southern coast of Florida, Key West is a mass of wreckage and the damage to property is estimated at \$2,000,000. Martial law was proclaimed by the mayor and the Key West guards are patrolling the city.

The United States government has been asked to dispatch troops here without delay to assist in patrolling the storm-swept area.

Chaos reigns on every hand and few people remain in their homes, hundreds of which have been totally wrecked or damaged. It is impossible now to say whether there has been loss of life, but it is thought that many lives have been claimed along the coast.

It is known that many have received serious injury and unconfirmed reports are current that several lives have been lost. The storm reached its height at 1 o'clock p. m., when the wind had an estimated velocity of 100 miles an hour.

While the hurricane is the worst that Key West has ever experienced, the local weather observer said that the indications are that the entire east coast of Florida will suffer terribly. Of one hundred local vessels in the harbor, but five remain at anchor; the others have either gone to sea or have been washed upon the beaches. The streets along the water front are a mass of wreckage.

Brick as well as frame buildings throughout the city suffered alike from the fury of the hurricane and many miraculous escapes from death and serious injury have been reported. Besides the several score of residences either totally wrecked or blown from their foundations, nine factories were partially destroyed. No. 1 and No. 3 of the city fire engine departments were destroyed and the firemen narrowly escaped. The top of the First National bank was blown off, the postoffice damaged and two running gears of the government coaling station were wrecked.

Every telephone and electric light pole on Duval street, the principal thoroughfare of the city, was blown down.

As soon as the wind had subsided plundering began. The city police force was unable to cope with the situation and the mayor decided to take stringent measures to suppress the looting, his proclamation of martial law resulting. Almost every nationality is represented among the city's population of more than 20,000, about one-half of whom are employed in the cigar manufacturing, sponge, fisheries and salvage companies.

## SERIOUS CYCLONE IN CUBA

**Devastates Whole Western Portion of the Island.**

Havana, Oct. 12.—The most serious cyclone since the big blow of Oct. 17, 1906, struck Cuba, causing extensive devastation through the whole western portion of the island. In the city of Havana many minor buildings were blown down or unroofed; almost all the trees were uprooted and five persons were killed, one by an electric wire and the others by falling buildings. About twenty-five persons were injured.

The greatest damage done was in the harbor, where forty or fifty lighters, launches and small tugs were either sunk or blown ashore. At Casa Blanca great anxiety was felt throughout the day for the safety of the Ward liner Morro Castle from New York, and the Plant line steamer Miami from Key West. Both of these steamers, however, arrived safely, having kept off shore for hours awaiting an abatement of the storm. The total damage in Havana and vicinity is estimated at \$1,000,000. The greatest individual loss has been caused by the destruction of half the coal elevator conveyors of the Havana Coal company at Casa Blanca, estimated at \$200,000. It will be possible to raise the greater number of the wrecked lighters and other craft.

Communication with the interior of

the island has been interrupted except with parts of Havana and Pinar del Rio provinces, in which the orange and other fruit crops suffered severely. There were heavy floods at Vuelta Abeajo, the tobacco region, but the tobacco crop has not been seriously affected, beyond the washing out of the seed beds, which at this season of the year are capable of renewal.

## FIRST TOUCH OF WINTER

**Heavy Fall of Snow in Northern Part of Minnesota.**

St. Paul, Oct. 12.—A dash of winter swirled down over the northern part of the Mississippi valley and Great Lakes country, throwing everywhere a transitory confetti of white—the first snow of the fall of 1909.

Twelve inches of snow were reported from the range north of Duluth and more falling. Northwest gales were whipping Lake Superior into a fury as the storm center moved nearer to it.

Snow fell throughout Iowa, accompanied by high northwest winds. It fell as far south as Omaha and St. Joseph, Mo., as far east as Hamilton, O. New Richmond, Plainfield, in Wisconsin, and Michigan's peninsula reported a heavy fall of snow.

High winds prevailed at forty and sixty-mile velocity, and have not ceased.

## DISASTROUS FIRE IN MINNEAPOLIS

**Two Men Hurt and Valuable Property Destroyed.**

Minneapolis, Oct. 12.—Two firemen were seriously injured by falling walls and property to the value of \$77,000 was destroyed in one of the most sensational fires that has visited Minneapolis in years. The injured are: James Craigie, pipeman, back wrenched and internal injuries; John Bohan, pipeman, compound fracture of right arm, internal injuries and bruises about head and body.

Patrolman Frank Rhoades was passing the building at 1207 Washington avenue south when he noticed smoke coming from the rear of the building. He at once turned in an alarm. Rhoades then ran into the building and, assisted by Harry Lindsey, proprietor of the Oxford hotel, which occupied the third and fourth floors of the building, proceeded to arouse the roomers.

There were about fifty persons on the hotel floors and the two men had considerable difficulty in rousing them to the danger in time for them to escape. The flames were spreading rapidly and by the time the department arrived the building was doomed. The roomers all escaped with their lives, though nearly all of them lost their personal belongings.

The two lower floors of the structure were occupied by Bolmgren Bros., furniture dealers, with a stock of goods valued at \$25,000, which was a total loss. The other losses are as follows:

Crown Clothing company, \$600; Mrs. S. C. Jager, millinery store, \$1,000; H. S. Pearson, music store, \$100; roomers in Oxford hotel, \$500; rooming house above Jager store, \$200.

The origin of the fire is a mystery.

## KNOCKED CHAMPION DOWN

**Gunboat Smith Nearly Put Big Negro Out.**

San Francisco, Oct. 12.—"Gunboat" Smith, a seaman from one of the United States cruisers anchored in this harbor, scored a knockdown in a four-round bout with Jack Johnson, the negro heavyweight. Coming out of a clinch in the last round, the sailor swung a right hand chop which took Johnson flush on the chin. The champion went down flat on his back and when he recovered his feet he was so dazed that his manager cut the round short.

## TWO KILLED AND SIX HURT

**Gun Explodes on Fort Riley Military Reservation.**

Junction City, Kan., Oct. 12.—Two men were killed and six injured on the Fort Riley military reservation by the explosion of a four-inch gun during military tests. Sergeant Smith and Private Daviels of the Sixth field artillery were killed. Lieutenant Ralph M. Pennell was perhaps fatally hurt. Five privates were slightly injured.

The explosion, it is said, was due to a defect in the gun.

## FACES A LONG TERM IN PRISON

**Banker Morse May Have to Serve Fifteen Years.**

## NOW BACK IN THE TOMBS

Federal Supreme Court and the President of the United States Alone May Save Convicted Ice King From Hard Labor in the Penitentiary. Prisoner Keenly Regrets Curtailment of His Activities.

New York, Oct. 12.—Unless the supreme court of the United States reverses the decision or the president of the United States interferes, Charles W. Morse, one-time "ice king," coast-wise steamship line organizer, banker and capitalist, will serve fifteen years at hard labor in the federal prison at Atlanta, Ga. After having been at liberty under \$125,000 bail since June 17, last, he is back in the Tombs prison, where he contemplates the decision of the United States circuit court of appeals rendered Monday sustaining the judgment of the lower federal court, which found him guilty in November last of violating the national banking laws.

There was solace in the decision of the court of appeals, however, in that only ten of the fifty-three indictments on which he was convicted were sustained, and on the strength of this, his counsel, Martin W. Littleton, will immediately carry the case before the United States supreme court on a writ of certiorari. To this end, the United States court of appeals has granted a forty days' stay of execution and pending a decision by the supreme court application will be made to have the prisoner again admitted to bail.

Morse was almost immediately taken to the Tombs.

One of Morse's keenest regrets at being forced to return to prison is the interruption of his beaver-like struggle to rebuild his fortune. Since his liberation under bail he had been re-elected president of the Metropolitan Steamship company, a New England corporation, and of the Hudson Navigation company, operating a line of boats on the Hudson river. He is credited with having discharged the bulk of his debts. From the two big transportation lines that had within the week elected Morse as their president, there was no official statement forthcoming after Monday's decision. It was understood that for the time being, at least, the elections would stand.

## ON THE PANAMA LIBEL CASE

**Comment of Judge Anderson of the Federal District Court.**

Indianapolis, Oct. 12.—That the so-called "Panama libel case" was "more or less of a political matter" was the comment of Judge A. B. Anderson of the United States court of this district at the close of argument in the hearing of Charles R. Williams and Delavan Smith, proprietors of the Indianapolis News, whom the government is seeking to remove to the District of Columbia for trial on the charge of criminal libel.

The court said that it wished not to give an impression that it had formed an opinion on the merits of the case, but that it wished to point out the trend of the argument toward its further enlightenment as to whether or not this was probable cause for indictment of Messrs. Williams and Smith by the federal grand jury of the District of Columbia for criminal libel in their having published articles intimating that there was a "graft" of \$28,000,000 in the sale of the Panama canal zone to the United States by the French company.

"What is the guilty intent to be shown on the part of these defendants?" the court asked Stuart McNamara, special attorney of the department of justice in charge of the proceedings. The judge went on to explain that he was in doubt that it could be shown that the defendants had malicious forethought to libel former President Roosevelt, President Taft, Charles P. Taft, William Nelson Cromwell, J. Pierpont Morgan, Douglas Robinson and others.

## May Make Duluth Dry.

Duluth, Oct. 12.—The Duluth Civic League will probably take steps to suppress the sale of liquor in Duluth under the provision of the treaty of 1855, according to Bert Wheeler, president of that organization.

## David Belasco Ill.

New York Oct. 12.—David Belasco is seriously ill at his home here with an attack of pneumonia. Reports that his condition was critical were denied.

## Adlers Gloves and Mittens For Both Women and Children

We can supply you with fleeced lined, fur lined or silk lined gloves, and mittens with warm linings for winter wear. Most of these are the "Adler" quality which means service. We are also showing a beautiful line of Kayser cashmere gloves. These are imitation of Mocha.

**"MICHAEL'S"**

## CRANE'S AFFAIR NOT YET SETTLED

**Believed the Matter Is Up to President Taft.**

Washington, Oct. 12.—Today probably will see the determination of the question whether Charles R. Crane will be requested to resign his recently acquired office of minister of the United States to China, or will be permitted to resume in that capacity his journey to Peking, whither he was almost in the act of sailing from San Francisco when peremptorily summoned by Secretary of State Knox to return forthwith to Washington and explain his alleged responsibility for the disclosure in a newspaper dispatch of supposedly confidential information about the attitude of the United States toward the new treaty between China and Japan.

Secrecy shrouded the situation all day; Secretary Knox was practically inaccessible, other state department officials disclaimed any knowledge of the state of affairs, Mr. Crane himself was virtually dumb. Notwithstanding the general expectation that he would have a decisive conference with the secretary, he did not call at the department, nor, so far as can be learned, did he have any conference with Mr. Knox at his home.

It came at last to be believed that the whole business has been referred

by Secretary Knox to President Taft; it was supposed, in fact, that telegrams had been sent to the president after the extended conference at Secretary Knox's house which followed almost immediately upon Mr. Crane's arrival here from San Francisco. It is assumed also that Mr. Knox informed the president of all the material facts in Mr. Crane's case, together with his own views upon the subject. All the indications point in this direction and the matter is expected to remain in statu quo pending receipt of advice from the president.

## PIRATES WIN THIRD GAME

**Defeat Detroit in a Spectacular Contest.**

Detroit, Oct. 12.—Pittsburg defeated Detroit by the score of 8 to 6 here in one of the most spectacular and fiercely contested games ever played in world's championship series. This gives Pittsburg the margin of two games to one in the series and the National league champions are correspondingly jubilant. Detroit, however, showed in the final innings of the battle that it is far from a hopelessly beaten team.

Weather conditions were frightful. Rain fell frequently during the nine innings, several times in hard showers of several minutes duration. The sky was threatening all day and the low hanging, dark clouds made the atmosphere so dark during the last two innings that it was hard for either players or spectators to follow the ball. The afternoon recalled the first ball game of the 1908 world's series, when the Chicago Nationals beat Detroit, with Summers also pitching, in a rain storm. A sharp northwest wind added to the discomfort of the

players and the spectators in the unprotected stands. Despite the wretched weather, the attendance, 18,277, broke all local records for the world's series.

Pittsburg jumped into the lead immediately by scoring five runs in the first inning. They batted Summers out of the box, aided by some poor fielding. Another run in the second inning gave Pittsburg a lead of 6 to 0 and the game then appeared to be safe for the visitors. Detroit, however, came to the fore with one of the gamiest rallies ever made and scored four runs in the seventh inning, batting Maddox hard and playing like fiends. With the score 6 to 4, Pittsburg connected with some of Works' curves in the ninth for two runs. With the score 8 to 4 against it, the Detroit team even then did not realize it was beaten and smashed out two more runs in the last inning. Had Sam Crawford been able to hit up to his usual mark there would have been a different story to tell.

Detroit outbatted Pittsburg by a margin of one hit, getting twelve to the winners' eleven.

## ALL RECORDS ARE BROKEN

**Receipts for World's Championship Series Enormous.**

Detroit, Oct. 12.—All records for world's championship series receipts have been broken by the present series, according to a statement issued here by George Moreland, the baseball statistician. The three games have brought in 78,405 paid admissions and the total receipts have been \$162,835. The division of the receipts follows:

Players, \$55,529.28; each club, \$18,509.76; national commission, \$10,285.20.

have traveled over the country  
Canada most of the way between  
ancouver and Quebec. It is a big  
country—lots of land. Some time in  
future all of the north American  
continent north of the Panama Canal  
be under the government. Then  
the people, except colored, will  
gle and mix and enlarge the  
merican nation who will speak the  
English language and be distinctly  
merican.

One desires to view some of the  
usual surface indications of differ-  
parts of the earth, he can see  
m by going through the Yellow  
ne Park; by looking over that  
t of the Northern Pacific and the  
at Northern railways west of the  
side of the Rocky mountains and  
Shanta route between Portland  
San Francisco. Then dine at  
eler on top of the Rockies on the  
adian Pacific in British Colum-  
then enter the observation car  
scan the country as the train  
ly but cautiously winds its way  
ough the canyons and around  
sides of the mountains until the  
hills of that range are left be-  
d, the Columbia river is crossed  
the train has passed through  
score or more tunnels along the  
zer river and entered the rich and  
tile fields about Vancouver which  
duce delicious apples, peaches,  
rs, grapes and other fruit and has  
climate unexcelled. Here you  
athe in the healthy atmosphere,  
apple the fruit and if your eye is  
ong enough, view the lonely  
ldings above mentioned on top of  
Rockies and at the foot of the  
ountain of ice that never melts,  
then think of the beauties of  
ure and the change of climate.  
you return, leave the train at Rat  
tage, Province of Ontario, Canada,  
e a steamer, cross the Lake of the  
ods, through the ten thousand  
nds, up the Rainy river, through  
ny lake with its numberless is-  
ds. The islands everywhere are  
que, unexcelled. The water in  
ny places is said to be hundreds  
feet in depth. The sides of the  
ands are perpendicular, of solid  
k from the water up for fifty feet  
more and seem to have been made  
the master hand of an expert  
son.

Continuing your eastern trip, stop  
g enough at the Sault Ste Marie  
examine the canal on the Canadian  
e and the canals on the American  
e, the Soo bridge across the river  
d watch the Indians as they take  
the tourists over the rapids in their  
oes for fifty cents each. Keep  
ar eye open and view the beautiful  
s around Lake St. Clair, and when  
r boat stops at Detroit, get a hack  
d go over the city; see the beau-  
ful modern sky-scrapers and ener-  
etic people. When you stop at  
ffalo, take a trolley car and go  
er to Niagara, view the falls in  
eir immensity, take another trolley  
r on the Gorge route, go down the  
nk to near the surface of the river,  
en follow the river down under the  
dge to Lake Ontario.

Here cross Lake Ontario to Toron-

to, a thriving city of 300,000 pop-  
ulation. Next you will pass through  
Lake Ontario and the Thousand Is-  
lands of the St. Lawrence river, large-  
ly covered with beautiful homes and  
some of them with costly and expen-  
sive hotels. When you reach Pres-  
cott, leave the boat and go aboard  
the river boat, King of the Rapids,  
and shoot the half dozen or more  
rapids, when you will reach Mon-  
treal, the Island City of four hundred  
thousand people. Here the tourists  
will visit the old part of the city with  
its old style buildings and streets,  
then the new part of the city with  
modern streets, modern and up-to-  
date buildings. Watch the tourist  
and you will see him take the street  
car or hack and go to the foot of the  
big mountain in the heart of the city,  
ascend the same in the elevated car  
and view the city from the top. You  
will next see him in Quebec, a city of  
eighty thousand people. Watch him  
there. He will take the elevated  
car at the Chateau Frontenac and  
gets out a little below the mountain.  
He goes down to the river and takes  
the ferry boat to Levis on the oppo-  
site side of the river from Quebec.

### DULUTH NOT OPPOSED TO COPPER

Aitkin Independent Informant in  
Error in Regard to Duluth's At-  
titude toward Dr. Copper

The Dispatch learns upon good  
authority that the article in last  
night's issue, which was clipped from  
the Aitkin Independent, was most  
erroneous. A prominent layman of  
this city, who attended the confer-  
ence at Duluth, gives us the following  
facts: "There is scarcely a Methodist  
Episcopal conference that assembles,  
but that there are a few men who  
seek certain positions for themselves,  
and it was this self-seeking of one  
individual who sought to put a bar-  
rier in Rev. E. K. Copper's way.  
This individual's efforts, however,  
were without avail. When this fact  
became known, not only did many of  
Dr. Copper's brother pastors interest  
themselves in his behalf, of their own  
free will and accord, but a large num-  
ber of the prominent laymen of Du-  
luth also went to the Bishop in the  
interest of Dr. Copper, and this too,  
of their own free will and accord.

Rev. Copper has made an enviable  
record as a district superintendent,  
and this was recognized by Bishop  
McIntire and his cabinet, and they  
gave to Mr. Copper what he had  
never lifted his finger to get for  
himself, the Duluth district.

### CLERGYMAN'S ATHLETIC CLUB

Movement Started to Form a Clergy-  
man's Athletic Club to Meet  
in the Y. M. C. A.

Several of the clergymen of the  
city are about to form an athletic  
club which will meet weekly at the  
Y. M. C. A. building. The course  
will consist of gymnasium work. The  
club will meet from 4:30 until 6  
o'clock each Wednesday evening.

Some of the local clergymen have  
come to the conclusion that Solomon  
reached centuries ago, "Of the mak-  
ing of books, there is no end, and  
much study is a weariness to the  
flesh," and they think that the phys-  
ical culture will give them better  
staying qualities in and out of the  
pulpit.

### MUSIC AND DRAMA

#### Yankee Doodle Stock Company

The Yankee Doodle Stock company  
which opened a week's engagement  
at the Park opera house last night  
with the "Princess of Patches," is  
one of the strongest repertoire or-  
ganizations that ever played this  
popular house and the enthusiasm  
with which last night's offering was  
received, indicates a record breaking  
attendance during the week.

Tonight the play will be a western  
melodrama entitled "In Arizona," a  
piece which for beauty and originality  
has few equals in the repertoire  
field. The scenes are laid on the  
plains of Arizona and a complete  
scenic and electrical equipment will  
attend its production. Between the  
acts vaudeville specialties will be  
introduced, a feature which will  
eliminate the tiresome waits which  
usually attend a repertoire show and  
which will make all the productions  
of the company a continuous enter-  
tainment. All specialties and or-  
chestral numbers will be changed  
nightly.

Tomorrow the company will play  
Al. H. Wood's great melodramatic  
success, "The Queen of the White  
Slaves."

## You'll "Warm" to These Styles

AND they'll "warm" to you these "chizzly" days  
—half-fall, half-winter—when last summer's  
clothes let the breezes in.

We're always proud to show the sterling styles, the  
best new things in fine fabrics and smart tailoring, that  
come from

### The House of Kuppenheimer

But we're unusually enthusiastic over the Fall and  
Winter Suits and Overcoats of that make which we're  
showing now.

Here's one very popular model illustrated, the Regent.  
It's a long, loose-fitting, comfortable, stylish coat—a  
style becoming to nearly every man.

We've a great many other desirable styles that we are  
just as enthusiastic about.

And every man, young or old, gay or grave, who's seen these  
new models has found our enthusiasm catching.

Because there's a style here, a fabric and a fit for every man of  
every notion.

You can't get away from right-quality-for-little-price. It's part  
of the Kuppenheimer creed and part of ours.

### Deerwood Boy Probably Lost

Friends of Prof. C. K. Leith, of the  
department of geology and mines of  
the University of Wisconsin, are wor-  
ried because he and two young men  
who went with him to investigate  
rock formations near Hudson Bay, in  
June, have not returned home.

Hugh M. Roberts, son of Judge  
D. E. Roberts, of Superior, and Fran-  
cis S. Adams, of Deerwood, are the  
other two members of the party.  
Judge Roberts said he did not ex-  
pect his son home before the latter  
part of October, but friends of Prof.  
Leith say they were expected back  
the latter part of September.

They are supposed to be working  
in the interest of the Canadian gov-  
ernment in a search for ore. They  
made their start from Madison and  
the last heard of them was when they  
left the Abitibi railroad to plunge  
into the wilds of northern Ontario.

### A College Club

There is a movement on foot by  
some of the alumni of the various  
colleges of the land, in Brainerd, to  
form a college club in the near fu-  
ture. Brainerd has as large a per-  
centage of college graduates as any  
city of its size in Minnesota and they  
are considering the advisability of  
getting together in club meeting.  
As there is no literary society what-  
ever in the city, the collegiates think  
it would be a good thing to get such  
an organization going.

### Itasca Co. Treasurer Embezzler

St. Paul, Oct. 11.—A. A. Kremer,  
county treasurer of Itasca county,  
was ordered suspended today by Gov.  
A. O. Eberhart. He confessed to the  
embezzlement of county funds. He  
made a confession to M. F. Kain,  
deputy from the public examiner's  
department, who has taken charge of  
the office and caused the arrest of  
the treasurer.

Kremer's method of retaining  
money, it is alleged, was to mark  
wrong totals on the duplicate re-  
ceipts. When several items on a tax  
receipt totaled \$324, he would mark  
the total \$224 on the duplicate he  
gave to the county auditor and keep  
the remainder, it is charged. At  
first he started with \$100 at a time,  
it is charged, then \$500, then \$2,000  
or even \$2,500. This had been going  
on some months when the discrep-  
ancies were discovered.

### Presbytery Meets Tonight

The Presbytery of the Red River  
Valley will convene tonight at the  
First Methodist church, and will  
bring together a number of clergy-  
men included in the Presbytery.

Rev. T. Whipple, Fergus Falls;  
Rev. Dugal McIntyre, Moorehead;  
Rev. J. Goddard, Elbow Lake; Rev.  
W. Stone, Maine; Rev. W. S. Ray,  
Lawrence and several others will be  
on hand this afternoon and evening.

The sessions, which commenced  
this afternoon, are open to the gen-  
eral public. A rare treat is in store  
for the congregation tonight. Rev.  
Thomas Whipples, of Fergus Falls,  
will give an address on "What the  
Archaeologist's Spade has Done Tow-  
ard Confirming the Truth of He-  
brew Scriptures." Rev. Whipple is  
one of the best read men in Assyri-  
ology, Egyptology and Archaeology.  
in Minnesota and his lecture tonight  
is anticipated with pleasure. The  
lecture will commence at 8 o'clock  
sharp.

### Your Daily Task

of carrying up coal for use in the  
kitchen will not be so heavy if  
you burn our coal. For our coal  
is the free burning kind which  
leaves no klunkers and few cin-

## ANCHOR OUTSIDE HARBOR

Many Vessels Unable to Get Into Duluth.

Duluth, Oct. 12.—Because the wind blew directly across the entrance to the canal a number of boats that arrived during the day anchored outside the harbor. It is unusual when the lake is used as a harbor and shelter in time of a strong wind.

The wind blew directly across from one canal pier to another and the captains were afraid to risk coming through.

Several boats were anchored outside the Superior entry also.

There was, in spite of the strong wind off the land, comparatively little sea in the lake and the boats lay outside the canal piers in perfect safety.

The waters of the Duluth-Superior harbor were lashed into a fury by a gale that blew in the neighborhood

of 60 miles an hour early in the morning.

There was not much moving around in the harbor. All the boats hung close to where they were at the time the wind began and some delay will result. Work on the ore dock was suspended until after the storm.

## PRESIDENT TAFT IN LOS ANGELES

Receives Enthusiastic Greeting in That City.

### VISITS SAN PEDRO HARBORS

Takes a Sail Inside the Big Government Breakwater There and His Launch Gets Stuck on a Mud Bank. Passes in Review of School Children—Makes an Auto Trip Through the City.

Los Angeles, Cal., Oct. 12.—President Taft arrived in the hospitable flower land of Southern California and received an enthusiastic greeting. He visited first the deep water and inner harbors of San Pedro below the city and had a sail of an hour and a half inside the big government breakwater.

Returning to Los Angeles, he was taken for an automobile ride of two hours through crowded streets.

The president passed in review of the school children and made an address to them in which he sought to inculcate a lesson on patriotism by catechizing them as to the meaning of the flag and their idea of the liberty which it represents.

Mr. Taft was the guest of honor at a banquet at the Shriner Auditorium, which, in point of attendance and in lavishment of decoration, proved to be one of the distinctive features of his trip.

The president's visit to Los Angeles primarily was arranged that he might spend a day or two with his sister, Mrs. W. A. Edwards. Mr. Taft rested at his sister's home for a time during the late afternoon and spent the night there.

The president will be taken for an automobile ride to Pasadena and through the orange districts of Riverside. He will be entertained at luncheon at Pasadena and at dinner at Riverside. Later he will start for the East on the latter half of his long trip, and, both in point of time and in mileage, his journey will be half completed.

### Launch Stuck in the Mud.

When the president reached Los Angeles his train was immediately switched to tracks leading to the harbor of San Pedro. Arriving there the president was taken aboard a launch for a trip around the water front. He was escorted first into the inner harbor to be given a glimpse of the gigantic task of dredging out a basin that will permit the docking of vessels within twelve miles of the city proper. Only the president's launch was allowed in this harbor.

Much to the chagrin of the government engineer in charge of the inner harbor work, the president's launch struck a mud bank in the completed section and stuck fast for a minute or two. During this time Mr. Taft and the others had to change their positions from the stern to the bow of the launch. The delay was only momentary. When the president's boat headed for the outer water a flotilla of accompanying craft fell into its wake.

The president later in the day was made a member of the Los Angeles association of California Pioneers and was officially welcomed to Los Angeles.

Before leaving San Pedro, Mr. Taft was shown the site of the fortifications that are to be constructed to protect the Los Angeles harbor.

In the tropical park, near the Arcade railroad station, the president was officially welcomed to the city by Mayor Alexander and a large committee of citizens. Mr. Taft entered an automobile, a mass of yellow chrysanthemums, and at the head of twenty-five other cars was driven through the down town and residence sections of the city.

A canary will live twelve or fifteen years, a nightingale will live eight or nine years, and a blackbird will live about twelve years.

### ITCHING IRRITATION

Worst Form of Skin Trouble Quickly Cured by Inexpensive Treatment

When you suffer with any skin trouble, even though the itching seems unbearable, do not think that it is necessary to use some disgusting greasy ointment. Try Hokara, a pure and simple skin food, that is guaranteed to contain no grease or acids and which is so cleanly that it does not soil the linen.

Its power to instantly relieve any irritation of the skin and make it soft, white and beautiful is almost miraculous.

Not only are minor skin troubles, like pimples, blackheads, acne, barber's itch, etc., quickly cured, but the worst ulcers or cases of salt rheum or eczema are cleansed and healed by this wonderful remedy.

In order that any one may try Hokara at small expense H. P. Dunn is selling a liberal sized jar at 25c and in addition guarantees to refund the money if the treatment does not do all that is claimed for it. Larger size 50 cents.

## UP TO THE SUPREME COURT

Status of Insurance Policy on Life of Man Legally Executed.

Washington, Oct. 12.—The question whether the ordinary insurance policy insures a man against death by legal hanging is raised in the case of the Northwestern Mutual Life Insurance company vs. J. William McCue and others, which was presented to the supreme court of the United States.

McCue is one of the children of the late Mayor J. Samuel J. McCue of Charlottesville, Va., who was hanged for murdering his wife.

About a year previous to the crime, McCue took out a policy of \$15,000 in the Northwestern Mutual Life and the company refused to pay the policy on the ground that "the death of the insured by hanging under sentence of a court justice annulled the contract of insurance." The United States circuit court gave a verdict in favor of the company, but that verdict was reversed by the United States circuit court of appeals.

It enables them to buy only the finest wheat—direct from farmers—

To maintain great elevators in the wheat belt of North Dakota, where they cure and age their own wheat.

To maintain laboratories where every day's run of wheat and flour is rigidly tested—where they prove absolutely that Occident Flour is the best in the world—for food values, cleanliness and baking qualities.

To buy better sacks to protect Occident Flour in shipping and handling. (\$25,000 more are spent every year for the fine, firm Occident sacks, than would be spent for the ordinary kind.)

## The Difference Shows In Your Baking

The first cost of Occident Flour is a few cents more—you get the results in your baking.

Try it—you'll say with us it is worth many times the difference. Your Money Back if Occident Is Not the Best Flour You Ever Used.

Go to your grocer and get a sack of Occident Flour. Use it for your next baking—and as many more as you please. If, then, you are not convinced that Occident Flour is the best you ever used—gives surer and better results with all your baked stuff—go back and tell your grocer. He is authorized to refund, without argument, the full purchase price of any package of Occident which you do not find satisfactory.

Isn't that the broadest guarantee, the fairest offer you ever read?

It is for you to make use of today—if you please. You cannot know too soon why and how Occident Flour is better than any other.

### Three Chinamen Electrocuted.

Boston, Oct. 12.—Three Chinamen, Min Sing, Leon Gong and Hom Woon, were electrocuted at the state prison in Charlestown for the murder of four of their countrymen in a "tong war."

### DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or over-busy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better. In fact, the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, directed to the cause would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any condition of the female system.

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down, debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest, earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nerve tonic "Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency. Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.
